

TEAC®

USB Flash Drive Printer

The ONLY Dye-Sublimation Quality Image Printer in the World that Prints onto USB Flash Drives

Introducing... **TEAC P-55B-ST**

More and more USB flash drives are used to distribute content or product information at presentations, to customers, internally within the organization or for photos, data, files and music.

Now, you can customize and print on the USB Flash Drives with the new TEAC P-55B-ST printer, the only printer that can print onto USB Flash Drives today and with highest image quality possible.

Amazing Photo Quality!
